Profile

Aspiring Java Developer with a keen interest in Android and UI/UX development. Eager to leverage my foundational skills and passion for coding to excel in Java backend and Android development. Inspired by my journey from coding noviceship to acquiring proficiency.

Education

B.E. Electronics and Telecommunication *K.C. College of Engineering Management Studies and Research Thane, India*
Relevant Courses: Software and Hardware, Data Visualization, Problem Solving, Presentation, Soft skills.

Internships

Web Developer, ([Sahu Technologies](#)) **Mumbai, India** 08/2022 - 09/2022

- Developed an E-commerce shopping website with user-friendly interface and responsive web pages using HTML, CSS, and Bootstrap.
- Implement hover effects on product images for interactive user experience.
- Create pop-up price displays for products to provide quick information and implement a fix image scrollable effect for seamless navigation through product images

Android Developer, ([Eduskill Google for Developer](#)) **Mumbai, India** 10/2023 - 11/2023

- Developed and enhanced mobile applications using Kotlin, Java, and Jetpack Compose. Implemented complex UI/UX designs, optimized performance, and debugged issues across multiple projects.
- This hands-on experience advanced my proficiency in Android development, equipping me with the skills needed to tackle more complex projects in the future.

Projects

Unit Converter App

- Developed a Unit Converter App utilizing Kotlin and Jetpack Compose to convert various units of measurement, such as meters to centimeters and millimeters to feet.
- The app leverages if-else statements, functions, and data classes to manage and process user inputs efficiently. Implemented a dynamic UI that provides instant conversion results, ensuring a seamless user experience. Managed user inputs using MutableList to handle multiple conversions simultaneously.

3D Sliding Juice UI Design

- Developed an engaging 3D sliding juice can UI design with a focus on delivering a visually captivating user experience.
- Utilized advanced UI/UX principles to create dynamic components that respond to user interactions with a seamless slide effect. Background text and illustrations move fluidly to reveal the next slide, enhancing the overall aesthetic and providing a refreshing transition. This project showcases proficiency in creating interactive and visually appealing interfaces.

Online Courses & Certifications

- Introduction to Digital Marketing (Jan. 2022) - [Google](#)
- Computer Communication and Network (March. 2024) - [Cisco](#)

Skills

- Figma
- Java
- SQL
- Android
- HTML, CSS
